Description:

- **【Safe&High Quality Ceiling Fan with Light】** The flush mounted ceiling fan features a premium LED screw light and a acrylic shade. No flicker and wobble while the fan and light are working. They protect our eyes and health of the family. Long service time and durable to use. The fan blade of this product is 6 inches and works vertically

downwards, and the adaptable area is 3 to 4 square feet, please purchase carefully

- **【Modern Ceiling Fan with Three Modes】** There are 3 working modes for this modern small ceiling fan with lights. Mode 1 - Light on. Mode 2 - Light and Fan on. Mode 3 - Fan on. All the functions are controlled by a remote. It is very convenient to use this ceiling fan with light. The ceiling fan and LED lights are able to work together and independently, in summer and winter.
- **【Multi-functional Enclosed Ceiling Fan with Light】** The low profile enclosed ceiling fan makes sure it safe to use, and doesn't cause any danger about working fan blades. It also has 3 light color to change, 3000K warm light, 4500K natural light and 6000K white light. The brightness level starts from 10% to 100%. The ceiling fan and LED light can be automatically switched off with a timer. 1h, 2h and 4h timer settings, plus 3 gears of wind speed adjustment.
- **【Application】** Our ceiling fan bulb can be used for garage, tool room and ect. What's more, our fan bulb offer three fan speeds (soft, medium and strong), and you can adjust it with remote to satisfied your need. For example, in summer day, it's very difficult to install the ceiling light fan in garage. However, it's too hot. Our ceiling fan bulb

is a good choice. With a lampholder, it can work well.

- **【Small Ceiling Fans Easy to Install】** This small modern silver ceiling fan with lights, no assembly required. Ready to use after unwrapping the box. E26 socket light base. Connect the wires and screw the white ceiling fan to the base socket. The pendant light wires are adjusted according to the ceiling height. You can complete the installation on your own, and don't need to spend extra money and hire an electrician.

Customer ratings by feature:

- Easy to assemble: 4.5
- Noise level: 4.2
