Room Type	Office, Kitchen, Bedroom, Living Room
Special Feature	Portable, Bladeless, Oscillating

Recommended Product	Uses For	Cooling
Noise Level		30dB

- Descriptions:

- **Blade-free Safety** The tower fans oscillating quietly with remote are ideal for households with curious children and pets since they have a little border that both strengthens airflow and prevents unintentional touch.
- **"Comfortable Table Fan"** With the aid of speed settings, remote control and touch sensitive controls may accurately regulate airflow power. The powerful button facilitates a quick drop in temperature. It may rapidly cool the air in the area, making you feel cool.
- **Temporary Function Feature** a sleep timer! The fan can be configured to turn off after predetermined intervals of between one and eight hours. Lower decibel levels make it quieter so people can sleep well. Noise levels under 30 dB.
- **Oscillating fan with efficient customization for cooling** 80° of airflow coverage at 8 speeds. This bladeless tower fan makes it simple to stay extremely cool throughout the blazing summer or to drift off into a peaceful slumber.
- It is simple to move this elegant modern portable fan to your bedroom, living room, office, or other location. The floor fan's exquisite appearance allows it to blend in with any type of interior design. Cleaning is easier due to the removable rear grille.
- Please take note that items with electrical plugs are made for use in the US. Because outlets and voltage vary from country to country, this device might need an adapter or converter to be used where you are traveling. Before buying, kindly verify compatibility.
