<b>Special Feature</b>	Remote Controlled, Adjustable Height, Wi-Fi Enabled, Timer, Adjustable Tilt, Oscillating
<b>Recommended Uses For Product</b>	Cooling, Ventilating, Air Circulation
<b>Wattage</b>	55 watts

- **Descriptions:**

- Bring air conditioning closer than ever before with the Dreo pedestal fan, which channels air into a focussed stream that can go up to 100 feet and deliver a tremendous 882CFM of air volume. Air isn't simply blown away with Dreo's Turbosilent X technology; it also completely fills your bedroom, office, and any other indoor spaces.
- Sleep soundly, the PolyFan 513S hardly makes a sound. This silent oscillating fan's innovative blade design and Brushless DC motor enable it to function at an astoundingly low noise level of about 25dB. It has been carefully engineered to eliminate Aerodynamic Noise.
- Beyond any floor fan, the Dreo PolyFan 513S offers ground-breaking air control with 6 wind modes and up to 8 speeds. Whether you need close-range cooling or want to blow a strong jet of air throughout your living room, this standing fan has you covered.
- Oscillation in all directions: Utilize this standing fan for air circulation that is second to none. Because of its 120° horizontal and 105° vertical oscillation, which more effectively distributes air throughout the entire room, you may enjoy the freshness not just for yourself but also with your family and friends. Even the airflow direction may be simply changed using your smartphone. If it has been switched off, it will also instantly return to its original state.
- When will controls be truly intelligent? Using just your voice, a smartphone, or a handy remote control, you can easily change modes, oscillation angles, and speeds with the Dreo Smart Fan. You may instantly check the status of your device on the built-in display. The PolyFan 513S has manual settings if you like them.

- Convenience designed for you: This floor fan's height can be adjusted from 37.96 to 43.5 inches to meet any location you require. Concerned about turning it off or the LED light's potential for distraction? You may unwind without tension thanks to the built-in timer (1-8H timer through control panel or remote, 1-12H timer via Dreo APP settings). Do you have cleaning questions? It's simple because to the replaceable pieces.
