- Descriptions:

- **Safer Operation & Simpler Upkeep** - Since there are no spinning blades, it is a safer option for homes with kids or pets. Cleaning is simple because to the bladeless design, which eliminates the need for unwieldy blades or grills.
- **Create Your Own Climate** - This bladeless tower fan has 10 speeds to chill your body and calm your mind whenever you need it, from light breezes to forceful gusts. Maintain a cozy temperature in your space.
- **Low Noise** - This bladeless fan has been improved with ultra-silent technology, which makes it quiet when in operation, with noise levels less than 50dB, allowing you to work or sleep in a cool environment without being disturbed. Ideal for the office, living room, study, and bedroom.
[SIMPLE INSTALL] The bladeless fan is simple to install thanks to the well-written installation instructions. Installation won't hurt the human body because the parts are compliant with safety standards. **Easy Operation** - Equipped with touch control (/LED display) and remote control, this bladeless standing fan is super easy to operate. The wireless remote control allows you to operate it from up to 20 feet away. You can control the oscillation, fan speed, 9 hour timer or turn off the tower fan from the comfort of your home office, sofa or bedroom.
- **Auto Oscillation** - The 71° wide oscillation feature to move air over a larger area, provide large movement from side to side, help provide an even and wide cooling area and efficiently deliver a stream of cool air to every corner it blows.
