Product Dimensions	17"D x 15"W x 47.5"H
Room Type	Living Room, Bedroom

Special Feature	3 Speed Settings
Recommended Uses For Product	Bedroom, Indoor, Home
Wattage	65 watts

- Descriptions:

- The standing fan is built for long-range and complete function control (up to 20 ft), and it has a blue LED display, a remote control, and auto power off features.
- Our pedestal fan's three adjustable speeds allow for a wide range of applications. Depending on the circumstances and the temperature, you can pick between low, medium, and high wind speeds. Our pedestal fan is a versatile option that works well in a variety of settings, including the office, the home, and others.
- 90° Oscillation: The 90° wide oscillation angle circulates air throughout the space and cools it down. Through the tilt angle of the fan head, the breeze could target anywhere between the floor and the ceiling.
- Stable and Quiet: The innovative technology from InfiniPower decreases noise by 40%, making it one of the quietest fans on the market. Less than 60 dB for sound pressure levels.
- Superior Quality with Worry-Free - We take care of any product difficulties, and customer support is our delight. If you have any questions, please email us at any time.
